

# RAZOR BLADE BARBED WIRE MAKING PLANT

(Razor Blade Barbed Wire Making Machines)  
(Punches Tape Concertina Making Machine)

- (a) Strip Punching Press (For making Concertina / Razor Blades)
- (b) Razor Blade and Wire Assembling Machine

## STRIP PUNCHING PRESS

### FEATURES

- These machines are used for manufacturing Concertina / Razor Blades.

### PLANT DETAILS

- The plant consists of two machines - a press for punching strip to form razor blades and an assembling machine for fixing the wire and the punched razor blades.
- The punched tape concertina / razor barbed wire has the following advantages over the conventional barbed wire: It has sharper barbs (blades), the blades are not prone to sagging and since both their sides are flat, in addition to the zinc coating already provided, one can easily coat them with anti-corrosive red oxide or paint to increase the life many-fold.
- One kilogram of the punched tape concertina / razor barbed wire measures approximately 12 meters in length.

**SPECIFICATION**

|                    |   |
|--------------------|---|
| Item Code No.      | <b>ABM-FM-6900</b>  |
| Description        | Strip Punching Press for making Concertina / Razor Blades |
| Strip Width        | 19 - 22 mm  |
| Strip Thickness    | 28 to 25 Gauges (0.37 to 0.5 mm)                          |
| Strip Material     | Soft Galvanized Iron Strip                                |
| Strokes per Minute | 125   |
| Pressure           | 10 Tons   |
| Production         | 4 Meter per Minute  |
| Motor              | 1 H.P.  |
| Net Weight         | 750 Kg.   |
| Gross Weight       | 950 Kg.   |

**RAZOR BLADE AND WIRE ASSEMBLING MACHINE**

**FEATURES**

- This machine is used for Assembling Razor Blade and Wire.

**SPECIFICATION**

|               |   |
|---------------|---|
| Item Code No. | <b>ABM-FM-6905</b>                      |
| Description   | Razor Blade and Wire Assembling Machine |
| Strip         | Punched Strip                           |
| Wire Diameter | 10 to 14 Gauge (3.25 to 2.03 mm)        |
| Wire Material | Hard Bright Wire, Preferably Galvanized |

|              |   |
|--------------|---|
| Production   | 8 Meter per Minute<br>(Approx. 350 Kg. per 8 Hours) |
| Motor        | 2 H.P. for Machine and 1 H.P. for Coiler            |
| Net Weight   | 950 Kg.   |
| Gross Weight | 1250 Kg.  |
